

IMPORTANT CHANGE with Wesleyan clergy helpline.

Dear Pastor,

We would like to alert you that the 877-REVCARE helpline is changing. Beginning June 1, **the new number to use is 800-53PASTOR.**

Also, the new service provider is Full Strength Network. FSN is one of our key premiere ministry partners whose sole purpose is to strengthen pastors and their families. They have access to a growing national network of vetted counselors, caregivers and service providers and are passionate about helping pastors and their families thrive in ministry life. We have been working with them in a co-op fashion since their founding. They have provided us significant financial and ministry program support.

Regarding the FSN **800-53PASTOR** helpline, here are some of the reasons we are making this change:

- Coast to coast network of vetted professional counselors and clergy care providers
- More counselors in proximity to our pastors
- The FSN helpline offers pastors and families coverage across all time zones
- Completely confidential third-party counselors
- 24/7 secure voicemail with confidential call back
- Significant cost savings from our previous number

We will send all pastors a mailing this summer that will include new refrigerator magnets to replace the old RevCare magnets and a label to affix to the back of their pocket credentials. Here is a link with the image/branding we are using for this number (this is what the new magnet will look like): [800-53PASTOR](#)

As we continue to work together to help all of our clergy and their families thrive, we want you, the pastor, to be aware of this important benefit. Thank you for your partnership as we continue to seek new ways to broaden and deepen our care for pastors in The Wesleyan Church.

Godspeed and peace in all your ministry endeavors,

Russ Gunsalus
Executive Director
Education & Clergy Development
